To Anyone Considering Booking Using Avish as a Speaker:

My group, the Tampa Bay Association for Financial Professionals, booked Avish to deliver a luncheon keynote at our annual conference, and it was spectacular! The feedback has been overwhelmingly positive, and more than one person said it was the highlight of the event!

To be honest, there was some concern and resistance when we first thought about hiring Avish because his topic of using improv comedy for business skills is **so** different from what we normally expect at a financial conference. I am glad we pushed through that - the unique approach turned out to be a perfect fit for our event! The energy, style, interaction, and humor were amazing at getting people motivated and recharged to enjoy the rest of the conference. Not only that, but the message was very applicable to everyone in attendance.

If you are reading this, I am assuming you are considering using Avish for one of your events. If so, I strongly encourage you to do so. His unique perspective would be an amazing, "breath of fresh air" for any Banking or Financial association or company.

Sincerely,

Melissa Hansen
